

# Leave a Legacy For the Next 50 Years

## Create a Living Legacy

Since its inception in 1959, Cancer Services has benefited from the generosity of individuals. Their legacies are reflected throughout our campus – in our buildings, our incredible programs and services and, most of all, in the grateful expressions of our clients. Less visible, yet equally important, is the impact that individuals can have by remembering Cancer Services in their estate planning.

We hope you will consider creating your own legacy for Cancer Services through a gift to the Howell Legacy Fund.

## How to Create Your Legacy

Created in honor of Mary Jane Howell and in memory of Blackie Howell, the Howell Legacy Fund is Cancer Services' Endowment Fund. By including it in your will or estate plans, you can realize the philanthropic and financial goals you have for yourself and your family while providing resources to help preserve Cancer Services far into the future.

There are many gift planning options that work to provide substantial support for Cancer Services while creating tax and income advantages for you and your heirs:

- Make a bequest through your will.
- Designate life insurance proceeds.
- Name Cancer Services as a beneficiary in your retirement plan or IRA.
- Design a trust-based contribution.
- Give an outright gift to the Howell Legacy Fund.

If you have already remembered Cancer Services in your estate plans, please let us know. We are grateful for your commitment and would welcome the opportunity to say  
**THANK YOU!**

To learn more about planned giving options at Cancer Services, contact Connie Caldwell or Mimi Riché at 225-927-2273 or [staff@cancerservices.org](mailto:staff@cancerservices.org).
